

MEMBERSHIP BENEFITS

Be involved and keep on top of the issues important to all Ohio structural engineers that affect your design work and your business.

- Current issues & events posted on website.
- Email updates and on Twitter: @SEAO
- Monthly regional meetings in local sections on statewide, useful topics.
- Annual Conference earns PDH economically
- Get involved and network on committees working for the future of our profession.
- Discounted rates on memberships, monthly meetings, and conferences.
- Subscription to STRUCTURE magazine.

STUDENT CHAPTERS

Students work with Faculty & SEAO advisors, have activities on campus and join web meetings. Advise a Chapter at your Alma Mater.

Ohio University – Ohio State University
University of Dayton – University of Toledo
University of Cincinnati – University of Akron

JOIN SEAO TODAY

Membership is only \$50/year, \$40/year renewal.

Visit our web site at www.seao.org, and click **Join Now**.

SEAO

STRUCTURAL ENGINEERS ASSOCIATION OF OHIO

WWW.SEA00.ORG

SEAoO is a nonprofit association of individual professional structural engineers across Ohio. We serve to advance the practice of structural engineering & represent members at state level.

SEAoO provides a resource to educate, inform, lead, serve, and protect, both the public and our members; a voice in development of codes, standards, laws, and expectations; a forum for individuals to share views, engage, and interact with peers; a group for emergency responders; an opportunity for PDHs at low or no cost; and a legacy supporting education to develop future structural engineers of excellence.

NCSEA – CASE – SEI

SEAoO is an independent self-sustaining all-volunteer organization formed in 2003. We are a member of the National Council of SEAs, which is made up of delegates from all states. **SEAoO** works in partnership with NCSEA, CASE, and SEI to promote national uniformity and unity in the structural engineering profession and supports the individual engineer.

SEAoO COMMITTEES WORK

Many technical activities occur behind the scenes. Members may join any group and network in meetings, email, and teleconference.

CODE ADVISORY – Current Code Issues:

- Existing Building Provisions, Chap 34.
- Structural Inspections, Chap 17 Clarification.
- Policy for SE's Role in Construction QA.
- Code Revisions Seismic Design and Others.
- OBBS Representation.

LICENSING – State Registration & Law issues:

- Nationwide development of Structural Engineer (S.E.) Licensure and Registration.
- Issue of S.E registration in Ohio.
- New 16 hour S.E. NCEES Exam.
- SEAoO Representation on the Professional Engineers and Surveyors Board in Ohio.

SEER – Structural Engineers Emergency Response: Be involved, trained, and ready to respond when SEs are needed on short notice.

CONTINUING EDUCATION – Plan events that keep us all informed on our industry, statewide regional meetings and our Annual Conference.

BASIC EDUCATION – Work with our student chapters, university curriculum, high schools and youth to develop future structural engineers.

ADVOCACY – Promote structural engineering and the profession to the public. Work with others in the industry to exchange information.

MEMBERSHIP – Sustain and build membership in the organization. Maintain roster and encourage individuals to take initiative and be leaders, to be involved and benefit.

COMMUNICATION – Publish activities and updates: Newsletter, Website, & Friday emails. Share news, views, experience, & concerns.

ORGANIZATION DEVELOPMENT – Planning SEAoO for years ahead and financial support.

ANNUAL CONFERENCE

If you have never been to the SEAoO Annual Conference you are missing a lot: two days with great speakers on the latest code issues, case studies on unique projects, engineering ethics issues, camaraderie with your fellow engineers, and information about the latest developments in fields related to our profession. Thursday evening features a field trip to an interesting construction project or testing facility.

Our conference receives high praise from participants. By attending both days, you can earn up to 14 hrs of Continuing Education.

The SEAoO Annual Conference is held centrally in Columbus in September.
